1650	<b>3.5</b>	9	9	8	8	7	7	6	6	5	5	4.5	4.5	4	4	3.5

To use the table, take the handicap of one member of a pair from the row and the other from the column, and read off the pair's handicap from the associated cell in the table. Then subtract one pair's handicap from the other's to get the number of bisques to be given.
